“ Dee those special memories of you will always bring a smile, if only I could have you back for just a little while. Then we could sit, drink coffee, and talk again, just like we used to do. You always meant so very much to me, our friendship is eternal. The fact that you're no longer here will always cause me pain, but you're forever in my heart. So long my old friend, until we meet again

“ Dee was a leader and mentor to many in the cooling tower industry. I have many memories of visiting him on difficult projects and being in aw of the progress vs the chaos. He maintained somewhat of a dry humor with the excitement of each day...

My thoughts and prayers are with the family.

“ I met Dee 12 years ago on a job in Colstrip MT. I was nervous as this was my first job with my company and had heard of Dee for many years working with another company as Dee was highly respected by so many in our field. From the moment I met him he didn't disappoint. Not only was his knowledge of our business great but his take on life was just as good. Always was the perfect combination of business and personality. Never a dull moment around him. He thought me so much and I strived to be like him in our field. I worked with Dee on several jobs all over the United States over a the years and if I were on jobs he wasn't on I would call him with questions or advice and just to talk.

Just last year I was able to find my way to Pueblo and have dinner with him, Jimmy, Jamie and family. It was really nice to see him and catch up in person.

My thoughts and prayers go out to the whole Wardle family. Dee was a great man and will be missed by so many.
