“ Betty was so sweet, keeping in touch with me. She and I had wonderful lunches together where we talked about teaching and our families. Sending love and peace to her family.

“ Betty was such a fun and beautiful person. She was a best friend to a very special coworker and they did do much together besides teaching. They enjoyed their retirement years doing fun events such as matinee movies and lots of fun things. Every student was so lucky to have Betty as a teacher. I will miss your laugh and talking to you. You are an angel now and will watch over all your family and us. 💔💔💔 🙏
