“ *Ralph was a high school buddy and fellow dirt bike rider. I will never forget when he ran out of gas, pushed his bike to my house, got some fuel from my dad, then led police on a high speed chase through the south side. My dad was the Assistant Chief of Police. He helped with bail & getting the charges dropped. You could always expect some action when Ralph was around! He will be missed.
I am glad to have known him and sorry for your loss. Bill Hurley*

“ *I have to add something, my whole family was fond of Ralph but my mom absolutely loved him. He would stop by the house and if I wasn't there he would sit and visit with her. He would have her laughing. She always said he was a nut, and that was a compliment from my mom.*

“ I am so very sorry for your loss. Ralph was a good friend. We were involved in much mischief and mayhem as boys. I remember that go-cart and many other things that Ralph took apart and put back together or fixed. Always amazed me with his ability to do so at such a young age. We were born one day apart. Ralph was very funny and could tell a mundane story in a way that would have you in tears. As the years went by I saw less of him as we all get involved in our day to day life but I always considered him a close friend and I will miss him.

“ My dear son, it breaks my heart that you died all alone. I heard the sirens later go by my house, and as I always did when they went by, hoping that they weren't for you because you didn't take your health seriously. I can't express the grief I felt when I did get the news, the saddest day of my life. I loved you from the day God loaned you to me, and death will not take my love for you away.

From a very young age, you were always mechanical minded. I will never forget how you put together a go-cart into a running machine when you were only about 10 years old, with no help from anyone; and you pursued that gift most of your working years. You had a variety of vehicles but your most loved it seems were the AMX when you came home from the service and your later years Dodge pickup. Remember how your dad would say that you always had to jack up the pickup and put big tires on it?

You always loved animals and we had a variety of them in your growing-up years. Even though your dad was always a hunter, you instead made pets of animals.

You loved Valentines Day and I could always count on you to bring me a beautiful card and box of chocolates when you were around. And you loved Christmas, putting up large light displays, and even growing your beard so you could play Santa Claus later in life. I have so many memories of you growing up, you were the light of my life. I grieved for days when you left home for the service. You had a life to live and I came to terms with that, but somehow we always kept in touch. You would bring me a large pickup load of wood in the winter for my fireplace to keep warm, you serviced my vehicles, you did so many things for me to make my life better, and I am eternally grateful.

I hope you knew how much I loved you, and you will live in my heart forever. Until we meet again. Much love, Mom
