“ *Bob was my brother. I found out about his passing when I was trying to contact him to inform him that our younger brother is about to pass. Bob and I had unconventional viewpoints on life and death and the here after. Hope he drops by to tell how the angels are treating him.*

“ I first met Bob back in 2000 - a group of us met over the internet in a chat forum, and he played host to us "Adventurers" who shared his passion for the extraordinary destiny and events of our planet.

Bob changed the course of my life! He introduced us to an exciting new look at historical events and future possibilities as predicted in various cultures, mythology and religious texts. He opened our eyes to a universe much larger than we ever dreamed. Most significant of all, Bob helped us explore techniques to connect to our Father in a new way that was/is very relevant and personal, especially in the turmoil of today's world events.

I hold special memories of the adventurous trips we all had with Bob, camping in the mountains, the laughter, the friendships, the strange and unusual events, the many photographs of rocks!! and the long trips from South Africa were well worth it.

I am so sad to hear that Bob is no longer with us. But his words still ring clear in my head - "No-one ever dies, we just move on to a different realm and will all meet again in time".

My condolences to Chris - we will all miss him.
