“ I am so sad to have come across this. I did a search for Tim to see if I could find and reconnect with him after all these years. Tim and I attended CU together back in 78 and I have nothing but very fond memories of our times studying and exploring the world as adults for the first time on our own. He and I would get into these laughing fits that were so intense that neither of us could walk. When he went to work at U S WEST one of his first acts of friendship was to get me an interview as an Operator. Because of him, I began what would be a long, successful career. I am truly sorry to have missed a chance to pay my respects in person. I know its been two years but my sincere condolences to the family. Tim spoke so fondly of you all and was in particular proud of his mom and how hard she worked. Wherever you are Tim - Respect
